

Enzymedica Kids Digest™

Good nutrition and proper digestion are vital for all children, especially during the growing years. As children grow, they too can develop digestive health issues. Poor food choices, fault digestion or a deficiency in enzymes may contribute to a variety of illnesses in children.*

Kids Digest is a mild potency **digestion enzyme product for children**, which aids in the digestion of all food groups. Its enzymes are all derived from plants. Enzymedica still stands by its commitment to not add fillers. And most important of all, Kids Digest relies on Enzymedica's potent Thera-blend enzymes.

Easy to Take!

No more swallowing caps! An easy to use scooper is found inside every container of **Kids Digest**. Just scoop and mix with your favorite juice. Potassium bicarbonate adds a fun fizz to whatever drink is used. Not for use with milk or water. Mix with juice only.

Xylitol is a five-carbon sugar, a natural carbohydrate found in certain plant parts such as cauliflower. Xylitol is used as a natural and safe alternative sweetener. Not only does Xylitol make a low calorie and delicious alternative to sugar it has a number of other special attributes. Xylitol does not cause significant changes in blood glucose and insulin levels due to its slow absorption time, making it safe for diabetics and those trying to lose weight. Research has shown, regular Xylitol consumption results in fewer cavities, improved gum health and fights bad breath. Further, Xylitol has even been effective in supporting bone health.

More children than ever suffer the consequences of [incomplete digestion](#). Enzymedica offers **Kids Digest** as a potent, safe and tasty support product to assist in the digestion and assimilation of the important nutrients in the foods children eat.

Enzymedica Kids Digest ; is a mild potency **child digestive enzyme** formula, which covers all food groups. Kids Digest enzymes are all derived from plants. Enzymedica still stands by its commitment to not add fillers.

Nutritional Information	
Servig Size: 1 Scoop Scoops Per Container: 90	
Amount Per Scoop:	
Enzyme Blend:	
Amylase <i>Thera-blend</i>	9,000 DU
Protease <i>Thera-blend</i>	31,500 HUT
Invertase	131 INVU
Alpha-Galactosidase	56.25 GalU
Lactase	638 ALU
Phytase/Pectinase	38 endo-PGU
Maltase	150 DP
Beta Glucanase	19 BGU
Cellulase <i>Thera-blend</i>	150 CU
Lipase <i>Thera-blend</i>	375 FCC FIP
Hemicellulase	23 HCU
Xylanase	413 XU
Other Ingredients:	
Potassium Bicarbonate	105 mg
Xylitol	90 mg

And most important of all, **Kids Digest** relies on Enzymedica's potent Thera-blend® enzymes. **Kids Digest** is a potent, safe, and tasty support product to assist in the digestion and assimilation of the important nutrients in the foods children eat.

Suggested Use: Add 1 scoop of **Kids Digest** to at least 6 ounces of your child's favorite type of juice and stir (a slight fizzing action will occur). The effervescent will only work in juice (fruit, grape, apple, etc.). Do not mix with water or milk.
